VOL 27. BLOOMSBURG, PA., FRIDAY, JANUARY 15, 1892. NO. 3

Mertus E. Edwards has opened an insurance office in A. J. Evans' block.

No ice has been harvested yet, and the present outlook for it is not encouraging.

The County Auditors adjourned last week until Wednesday of this week, and expected to be able to close up their labors in a day or two.

Rev. T. A. Lloyd who was unable to fill his appointment last Sunday at the Baptist church will preach next Sunday, morning and evening.

We have received a handsome calendar for 1892 from the Youth's Companion. It contains a picture of the new building now being erected, which will be occupied exclusively by that excellent paper.

The people of Danville are visited with an epidemic of typhoid fever. Several deaths occur every day. Our people should be careful about their drainage and see that no filth is allowed to accumulate.

There will be a meeting of the School Board in public library next Thursday evening, January 21st. The meeting is changed from Friday evening to Thursday, on account of the lecture on the 22nd.

Prothonotary Quick is entitled to a denial of the insinuation that he failed to settle his accounts with the Commissioners. He was ready to settle, but was requested to wait until after the Auditors were through with the books. He claims that upon a settlement there will be a balance due him.

Mr. John Wanich was married to Miss Ivy Branch Sparr of Shamokin, at the Episcopal Church in Shamokin, on January 12th. Mr. Wanich is a son of Amos Wanich of Mt. Pleasant and was formerly engaged in the insurance business in this town.

Rev. D. M. Stearns of Scranton, Pa., will meet all those that desire to join a union bible class at the Y. M. C. A. hall Friday afternoon January 22, at 4 o'clock. The securing of Mr. Stearns permanently will depend upon the attendance at this meeting.

John R. Townsend, Chairman of the Democratic County Committee, has been mentioned by many of his friends as a delegate to the Democratic National Convention, which will meet this year for the nomination of a candidate for President. He is an earnest worker for the party, and would represent this district very creditably.

Send in your orders now for township election tickets. We will send them by mail to any address in the county, not less than 100 to be ordered. Cash must accompany the order in every case. Stamps will be received. Names of candidates printed in at 50 cents a hundred. With blanks to write names in, 25 cents per 100. tf.

Charles Rux, colored, has been granted a pension. He received a check on Monday for $119 less a fee retained by his attorney at Washington, which was for the amount due from the time of his application to the time of its final approval. He gets $8 a month from this time on.

In connection with the elaborate programme to be rendered by the P. O. S. of A. Lodge, at their entertainment at Light Street, Saturday evening the 16th, inst., a public installation of officers will be given by the District President, and other state authorities. This alone is well worth the admission fee.

Editor Tubbs of the Shickshinny *Echo* is an inventive genius, and has got out a patent. In his last week's issue he says:

"The editor's New Years present was a patent for a fountain pen tip. The tip is loaded with lead and when removed from the point and placed on the opposite end will effectually prevent the pen from destruction should it fall to the floor. Fountain pens are practically indestructable by use, and this invention, carrying the weighted end to the floor first protects the pen from injury by accident."

Dr. Caleb O'Brien, of Benton, and Miss Sadie Cole, daughter of T. B. Cole, were married at the home of the bride's parents, above Benton, on Thursday, at 12 o'clock, noon. A number of guests were present, and many gifts were received by the bride. After the ceremony the guests enjoyed the elegant refreshments provided for them, and later in the day the newly-wedded couple started on a wedding tour.

Miss Rose Staddon, Miss Della Staddon, Mrs. Shaffer and Mrs. Rosenstock, of this town, were among the guests.

A BIRTHDAY SURPRISE.

Last Friday being the birthday of Mr. Charles W. Funston, his wife prepared a surprise party for him. Twenty gentlemen were invited to dine with them that evening at 7:30, and all were cautioned not to let Mr. Funston know anything about it. Strange to say the secret was kept, and although he suspected that a company of some kind was expected, he knew nothing of the character of it until all the guests had arrived. The gentlemen appeared in full evening dress, and when they came down stairs into the parlor without any ladies Mr. Funston thought there was some joke about it, and asked his wife why the ladies did not come down, and was then told what kind of a party it was. The dining room had been sealed to him since morning and he was entirely ignorant of what was there.

Miss Bess Monroe, of Rupert assisted in receiving.

At 8 o'clock dinner was announced and the guests were ushered into the dining room. Here a beautiful scene was presented. The table was set in L shape, and charmingly decorated with flowers and smilax, the latter intertwined among the dishes in a very pretty way. Twenty covers were laid and at each cover was a card containing the name of the intended occupant of that chair. A general hunt ensued which was amusing, until all had found their proper places. Each guest found at his place a boutonniere, Those present besides the surprised husband were Dr. J. G. Reifsnyder, Dr. J. S. Garrison, L. E. Waller, Chas Watson McKelvy, J. G. Wells, A. H. Bloom, J. H. Mercer, W. Clark Sloan, Frank P. Pursel, Rob W. Hartman, Geo. E. Elwell. Frank Ikeler, Henry M. Rupert, Geo. S. Robbins, Paul E. Wirt, C. C. Peacock, Fred Ikeler, Frank Wilson, and Geo. Richmond of Sunbury.

Then the dinner began, and such a feast! It was elegantly served in twelve courses, on exquisite china, cut glass, and silver, and consisted as nearly as can be remembered of the following: Blue Point oysters on the half shell; consomme soup; Salmon croquettes with Saratoga chips; oyster patties; Roman punch; roast turkey with dressing, corn and cranberry sauce, and asparagus on toast; hot house tomatoes with Mayonnaise, and crackers; ice cream and cake; bananas and grapes; assorted nuts; bonbons; coffee.

As the clock struck ten the company arose, having been two hours in discussing the good things set before them. Havana cigars assisted in digestion, and after two hours more spent in pleasant discourse, the guests departed at the noon of night fully impressed with Mrs. Funston's ability to originate and consummate a most delightful scheme, and of which many expressed to her the hope that she might see the propriety of repeating the dose at the annual recurrence of her husband's birthday. The party was a novel one, and the dinner was probably the most elaborate of the kind ever served in Bloomsburg. It is the wish of all present that Mr. Funston may live to enjoy his birthdays to a good old age.

Y. M. C. A. NOTES.

BLOOMSBURG & SULLIVAN ELECTION

At the annual meeting of stockholders of the B. & S. R. R. Co., on Tuesday the following officers were elected: President, C. R. Buckalew; Directors. M. McMichael, E. W. Clark Jr, J. H. Kershaw, Charles Evans, Samuel Wigfall, H. J. Conner, L E. Waller and J. K. Grotz. Samuel Wigfall was elected Vice-President and Treasurer, H. J. Conner Secretary, and F. M. Leader, General Manager.

Mr. Boyd C. Evans and Miss Bertha Shetler were married on Tuesday morning at 9:30 o'clock, at the residence of Mr. I. D. White on Market street, by Rev. P. A. Heilman.

No greater triumph in medicine or chemistry has been recorded than Hall's Hair Renewer to revivify and restore gray hair to the color of youth.

STUDENTS' LECTURE COURSE.

Mrs. H. E. Monroe, the third lecturer of the course, will deliver her lecture, "England—Its Shrines and People," on Friday evening of this week, in the Chapel of the Normal School.

Mrs. Monroe never fails to please and profit her audience. She was for fifteen years President of the Kansas Collegiate Institute, has traveled and lectured extensively in Europe, and has few if any superiors as an illustrated lecturer. The Washington, D. C. *Tribune* claims that she is "*quite equal to Stoddard.*"

Prof. Welsh, before engaging her, took pains to write to educators of his acquaintance in all parts of this state, who had heard her, and the replies without exception endorsed her unconditionally. She has lectured at most of the Normal Schools and colleges of this state, and they all give her a cordial endorsement.

She was at first booked to deliver her lecture, "Christ in Art," but her new lecture on England seems to be all the rage this winter, and we thought if other people called it her best, we would be guided by the popular judgment. Tickets at Brooke & Co's.

UNION REVIVAL MEETINGS.

Rev. W. P. Breed of Milton, refering to Evangelist Smith, who expects to conduct revival meetings in the Bloomsburg Opera House during the first two weeks of February, uses the following language: "Mr. Smith has won the love and respect and admiration of all our people. He is better fitted for his work than any man with whom I have ever come in contact. He is a cultured gentlemen, a devout christian, a preacher with remarkable persuasive power, a man of great wisdom and force in dealing with individuals who are in spiritual difficulty, and has absolutely perfect discretion and tact in the conduct of morning meetings for christians, and the evening "after-meetings." I assure you that the pastor who asks for the services of Mr. Smith will never regret the act. We prepared carefully and extensively for his coming and his work among us has been great. The spiritual life which has been infused into the veins of my church members is incalculable."

LOCAL INSTITUTE AT BUCKHORN.

The teachers of Hemlock and Montour districts met in local institute, Sat., Jan. 9, 1892.

The following teachers assisted in the work of the institute: Miss Maggie Tubbs, Miss Anne Tubbs, Miss Kate Shoemaker, Mr. Robt. Dent, Mr. Wilmer Girton, Mr. Raymond Stecker, Mr. Wm. Evans, and Mr. Harry C. McBride.

Miss Holmes, Miss Wright, Miss M. M. Gensel, Miss Lizzie Richart and Mr. Cotner were missed among those who should have been present.

The institute was one of usual interest and profit to the teachers and patrons assembled. The teachers took a very active part in the work, and showed by their remarks and interest that they are alive to the issues of the new education.

Supt. Johnston, Profs. Hartline and Bakeless, of the Normal, gave valuable hints and suggestions which, if practiced cannot fail to be of lasting benefit to teacher and pupil. The remarks by teachers were interspersed with songs by the choir, and recitation by the pupils of the several schools. The selections were rendered in a very pleasing manner and reflect much cred. it upon the performers.

Contests in reading and spelling were held by the various schools, all of whom did very well. It is hoped by all that there may be a speedy recurance of the Local Institute.

FIFTH STREET SCHOOL LIBRARY.

Prof. Samuel Pursel is much interested in establishing a library for the Fifth street school house, and in order to raise funds for that purpose he has arranged for three lectures to be given in the High School building. Prof. Waller will deliver the first one on the evening of January 22, the subject being "What shall we do with our boys" The second will be belivered by Prof. J. M. Coughlin, and the third by Rev. W. C. Leverett, dates and subjects to be announced. The price is only fifty cents for the three lectures, or 25 cents for admission to any one of them. The object is a most worthy one, and should receive the hearty suport of the public.

The ground glass in the front doors and vestibule doors of the entrance to the Court House darken the entrance too much. At such a place the hall should be as light as it can possibly be made.

WEST BENTON.

The grip is prevailing in and round Benton. Ellis McHenry is very low with it.

The Benton boys had quite a bit of sport Saturday with a fat porker, said to weigh 800 pounds. The party brought it from Stillwater to Boyd's Hotel, and it was put up and shot for, price $50. Some five about the hotel went snucks, and it is said that they were all tie, so they concluded not to shoot off the tie, and thought they would butcher it.

Daniel Brink has not sold any of his horses yet. He has some fine ones.

Knouse's boys are cutting out the lumber on the Keltner tract. Creasy & Wells have bought the timber.

Washington Knouse and Alexander have gone to Michigan to visit their brother and friends.

Henry Savage is still visiting his relatives. His home is in Nebraska; he expects to start for home about the first of February.

William Unger and wife are in from the state of Missouri. He is visiting his brother-in-law, Geo. R. Hess, of Benton. He says the west is the place to farm, where the soil is three to four feet deep with no stones to bother the plow.

G. A. Bull is very sick.

Stephen Parks is very sick at his fathers' house in Jackson township, with that dreadful disease consumption. He is married and his wife is at her folks.

Elder Stricner and Miss Laney Young left on the noon train last Monday. Supposition has it they are going to be married. Time will tell the tale.

Daniel Thomas is teaching the Green Creek school in Jackson; he is a good teacher and gives good satisfaction.

East Benton seems to not know what causes Benton to be the only thriving town along the line of the B. & S. R. R.. Some of the reasons are:

1. They pay more for produce than any other place along the line.

2. They sell goods cheaper than any other place in the county. They believe in quick sales and small profits. They come from Jamison City, Elk Grove and all the way from Sullivan county to buy their goods. They can make a good day's work, and pay their fare on the B. & S. to Benton if they want ten dollars worth of trade. We often see people trading here from back of Unityville. The same way East and South Bloomsburg had better come to Benton to buy their goods. They can get coal oil for 7cts, Arbuckles coffee for 22cts, and other goods in proportion. Your scribe was in Bloomsburg only a month ago and one of the merchants sold Arbuckle coffee for 28 cts. At that rate the people should take the train in the morning, come to Benton with your basket, get your trade, be back for dinner at twelve o'clock and make your day's wages and fare, and see our prosperous town.

3. The town of Benton is located along the beautiful stream of Fishing-creek, lies level, good spring water. That is something that some of our large towns are deprived of. Any person wanting to retire from business can not do better than come to Benton, where every thing is cheap, lots are cheap, and facility for building cannot be surpassed. All a man has to do as to locate his lot, Wesley & Simth will put him a house up by the time he can get his family there.

Maberry street is going to be the finest street in town, and lots are the cheapest at present and are nearly all sold.

BANK ELECTIONS.

At the annual election of directors by the stockholders of the First National Bank of Bloomsburg on Tuesday last, the following persons were elected: I. W. McKelvy, E. W. M. Low, C. R. Buckalew, M. I. Low and J. P. Tustin.

At the annual election of the directors by the stockholders of the Bloomsburg Banking Campany, on Tuesday last the following persons were elected: I. S. Kuhn, B. F. Sharpless, J. G. Freeze, B. F. Hartman and A. B. Stewart.

At the annual election held by the stockholders of the Farmers' National Bank of Bloomsburg on Tuesday, the following were elected directors: W. Kreamer, P. A. Evans, N. U. Funk, C. M. Creveling, C. W. Runyon, J. W. Eves, C. A. Kleim, W. Gingles, and W. S. Moyer.

There are no changes in any of the above from last year. At this writing none of the boards have yet met for organization and the election of officers.

It is reported that some extensive changes and repairs will be made in the Exchange block this spring.

ARBITRATED.

Last year the County Auditors refused to allow certain items in the accounts of the County Commissioners, and charged these items to the Commissioners. Among the items was money paid to M. Shaffer, the Court House contractor, for removing old cistern to get a solid foundation for the walls; an item of $5.00 overpaid for a soldier's tombstone, and overcharges by Stevens and Girton. From the Auditors' settlement an appeal was taken by the old Board of Commissioners, and on Wednesday the case was arbitrated before John W. Shumon, Freas Fowler and John B. Casey. At the time of the Auditors' report, Mr. Stevens promptly paid over the amount claimed to have been overcharged by him. B F. Zarr, Esq., represented the old Board, and R. R. Little, Esq., appeared for the county. After hearing considerable testimony the arbitrators made an award of $2.50 against William G. Girton in favor of the county. Mrs. H. E. Monroe, the third lecturer of the course, will deliver her lecture, "England—Its Shrines and People," on Friday evening of this week, in the Chapel of the Normal School.

Mrs. Monroe never fails to please and profit her audience. She was for fifteen years President of the Kansas Collegiate Institute, has traveled and lectured extensively in Europe, and has few if any superiors as an illustrated lecturer. The Washington, D. C. *Tribune* claims that she is *"quite equal to Stoddard."*

Prof. Welsh, before engaging her, took pains to write to educators of his acquaintance in all parts of this state, who had heard her, and the replies without exception endorsed her unconditionally. She has lectured at most of the Normal Schools and colleges of this state, and they all give her a cordial endorsement.

She was at first booked to deliver her lecture, "Christ in Art," but her new lecture on England seems to be all the rage this winter, and we thought if other people called it her best, we would be guided by the popular judgment. Tickets at Brooke & Co's.

UNION REVIVAL MEETINGS.

Rev. W. P. Breed of Milton, refering to Evangelist Smith, who expects to conduct revival meetings in the Bloomsburg Opera House during the first two weeks of February, uses the following language: "Mr. Smith has won the love and respect and admiration of all our people. He is better fitted for his work than any man with whom I have ever come in contact. He is a cultured gentlemen, a devout christian, a preacher with remarkable persuasive power, a man of great wisdom and force in dealing with individuals who are in spiritual difficulty, and has absolutely perfect discretion and tact in the conduct of morning meetings for christians, and the evening "after-meetings." I assure you that the pastor who asks for the services of Mr. Smith will never regret the act. We prepared carefully and extensively for his coming and his work among us has been great. The spiritual life which has been infused into the veins of my church members is incalculable."

LOCAL INSTITUTE AT BUCKHORN.

The teachers of Hemlock and Montour districts met in local institute, Sat., Jan. 9, 1892.

The following teachers assisted in the work of the institute: Miss Maggie Tubbs, Miss Anne Tubbs, Miss Kate Shoemaker, Mr. Robt. Dent, Mr. Wilmer Girton, Mr. Raymond Stecker, Mr. Wm. Evans, and Mr. Harry C. McBride.

Miss Holmes, Miss Wright, Miss M. M. Gensel, Miss Lizzie Richart and Mr. Cotner were missed among those who should have been present.

The institute was one of usual interest and profit to the teachers and patrons assembled. The teachers took a very active part in the work, and showed by their remarks and interest that they are alive to the issues of the new education.

Supt. Johnston, Profs. Hartline and Bakeless, of the Normal, gave valuable hints and suggestions which, if practiced cannot fail to be of lasting benefit to teacher and pupil. The remarks by teachers were interspersed with songs by the choir, and recitation by the pupils of the several schools. The selections were rendered in a very pleasing manner and reflect much cred. it upon the performers.

Contests in reading and spelling were held by the various schools, all of whom did very well. It is hoped by all that there may be a speedy recurance of the Local Institute.

FIFTH STREET SCHOOL LIBRARY.

Prof. Samuel Pursel is much interested in establishing a library for the Fifth street school house, and in order to raise funds for that purpose he has arranged for three lectures to be given in the High School building. Prof. Waller will deliver the first one on the evening of January 22, the subject being "What shall we do with our boys" The second will be belivered by Prof. J. M. Coughlin, and the third by Rev. W. C. Leverett, dates and subjects to be announced. The price is only fifty cents for the three lectures, or 25 cents for admission to any one of them. The object is a most worthy one, and should receive the hearty suport of the public.

The ground glass in the front doors and vestibule doors of the entrance to the Court House darken the entrance too much. At such a place the hall should be as light as it can possibly be made.

WEST BENTON.

The grip is prevailing in and round Benton. Ellis McHenry is very low with it.

The Benton boys had quite a bit of sport Saturday with a fat porker, said to weigh 800 pounds. The party brought it from Stillwater to Boyd's Hotel, and it was put up and shot for, price $50. Some five about the hotel went snucks, and it is said that they were all tie, so they concluded not to shoot off the tie, and thought they would butcher it.

Daniel Brink has not sold any of his horses yet. He has some fine ones.

Knouse's boys are cutting out the lumber on the Keltner tract. Creasy & Wells have bought the timber.

Washington Knouse and Alexander have gone to Michigan to visit their brother and friends.

Henry Savage is still visiting his relatives. His home is in Nebraska; he expects to start for home about the first of February.

William Unger and wife are in from the state of Missouri. He is visiting his brother in-law, Geo. R. Hess, of Benton. He says the west is the place to farm, where the soil is three to four feet deep with no stones to bother the plow.

G. A. Bull is very sick.

Stephen Parks is very sick at his fathers' house in Jackson township, with that dreadful disease consumption. He is married and his wife is at her folks.

Elder Stricner and Miss Laney Young left on the noon train last Monday. Supposition has it they are going to be married. Time will tell the tale.

Daniel Thomas is teaching the Green Creek school in Jackson; he is a good teacher and gives good satisfaction.

East Benton seems to not know what causes Benton to be the only thriving town along the line of the B. & S. R. R.. Some of the reasons are:

1. They pay more for produce than any other place along the line.

2. They sell goods cheaper than any other place in the county. They believe in quick sales and small profits. They come from Jamison City, Elk Grove and all the way from Sullivan county to buy their goods. They can make a good day's work, and pay their fare on the B. & S. to Benton if they want ten dollars worth of trade. We often see people trading here from back of Unityville. The same way East and South Bloomsburg had better come to Benton to buy their goods. They can get coal oil for 7cts, Arbuckles coffee for 22cts, and other goods in proportion. Your scribe was in Bloomsburg only a month ago and one of the merchants sold Arbuckle coffee for 28 cts. At that rate the people should take the train in the morning, come to Benton with your basket, get your trade, be back for dinner at twelve o'clock and make your day's wages and fare, and see our prosperous town.

3. The town of Benton is located along the beautiful stream of Fishing-creek, lies level, good spring water. That is something that some of our large towns are deprived of. Any person wanting to retire from business can not do better than come to Benton, where every thing is cheap, lots are cheap, and facility for building cannot be surpassed. All a man has to do as to locate his lot, Wesley & Simth will put him a house up by the time he can get his family there.

Maberry street is going to be the finest street in town, and lots are the cheapest at present and are nearly all sold.

ARBITRATED.

Last year the County Auditors refused to allow certain items in the accounts of the County Commissioners, and charged these items to the Commissioners. Among the items was money paid to M. Shaffer, the Court House contractor, for removing old cistern to get a solid foundation for the walls; an item of $5.00 overpaid for a soldier's tombstone, and overcharges by Stevens and Girton. From the Auditors' settlement an appeal was taken by the old Board of Commissioners, and on Wednesday the case was arbitrated before John W. Shamon, Freas Fowler and John B. Casey. At the time of the Auditors' report, Mr. Stevens promptly paid over the amount claimed to have been overcharged by him. B F. Zarr, Esq., represented the old Board, and R. R. Little, Esq., appeared for the county. After hearing considerable testimony the arbitrators made an award of $2.50 against William G. Girton in favor of the county. There will be no appeal from this award. The county will have to pay the costs.

THE SADDEST THING.

Quarrels come, and the days turn dark;
Partings are, and the parted moan;
Death stalks by, and a body stark
Lies where love once claimed its own;
But the saddest thing is a love outgrown.

A word, and the quarrel's smooth again;
A time and the parted clasp and kiss;
And even death is eased of pain
By hope of a reunited bliss;
But a love outgrown is stript of this.

'Tis the living form and the heart long dead;
'Tis the touching hands, yet the soul alone;
'Tis the trick to walk bride garmented
With dust and ashes upon us thrown—
The saddest thing is a love outgrown.

THE STONE BREAKER.

There was once in Japan—at a time so remote that savants hardly dare speak of it—a poor little stone breaker who worked upon the highways.

He worked upon the highways, while it was daylight, all the time, during all seasons, under the rain, the snow, or the sun. He was always half dead with fatigue, three-quarters dead from hunger, and was not at all contented with his fate.

"Oh! how I would thank Heaven," said he, "if I could one day be but rich enough to sleep the whole morning through, and eat and drink my fill. It is said there exist people, blessed by fortune, who thus live in ease and comfort. Stretched upon thick mats before my door, my back covered with soft vestments of silk, I would make a siesta to be broken every quarter of an hour by a servitor who should recall to me that I had nothing to do, and that I could sleep without remorse."

An angel passing heard these words and smiled. "Thy prayer be granted, poor man," said he.

And suddenly the stone breaker, enveloped in sumptuous vestments of silk, found himself stretched upon some thick mats before the door of a splendid dwelling. He was no longer hungry or thirsty, no longer tired, and all this appeared to him as agreeable as it was surprising.

He tasted during a half hour unknown happiness, when the Mikado chanced to pass. The Mikado! That was no small matter—no! The Mikado is the emperor of Japan and the emperor of Japan was, at that time, above all, the most powerful of the emperors of the Orient.

Preceded by couriers, the Mikado was traveling for pleasure, surrounded by cavaliers all decorated and bedizened, like the Grand Turk of Turkey, followed by famous warriors, escorted by musicians, accompanied by women, the most beautiful in the world, who dozed in their silver howdahs perched upon white elephants.

The Mikado reposed upon eider down, in a palanquin of fine gold studded with precious stones. His prime minister had the unparalleled honor of holding above his head a great tinkling parasol, all fringed with little bells.

The enriched stone breaker followed with an envious eye the Imperial cortege.

"I haven't gained much," he said to himself. "I am not much happier for the few paltry pleasures I am enabled to give myself. Oh, that I were the Mikado! I would travel in grand state, lolling in a golden palanquin blazing with precious stones, attended by my prime minister holding a great glittering parasol over me, while my second minister should cool my face with a fan made of peacock's feathers. Ah! that I could be the Mikado!"

"Your wish is granted," said the angel.

And immediately he saw himself stretched in the palanquin of fine gold, starred with precious stones, and surrounded by his ministers, his warriors, his women, and his slaves, who said to him in Japanese:

"Mikado, thou art superior to the sun—thou art eternal—thou art invincible. All that the spirit of man can conceive thou canst execute. Justice itself is subordinate to thy will, and God, trembling, awaits thy counsels."

And the stone breaker said to himself: "Ah! happy day! Now, here are people who know my value."

The sun, which had been very fierce for some days, had parched the country. The route was dusty and the sun's glare fatigued the eyes of the new made Mikado.

Addressing his minister who carried the tinkling parasol, he said:

"Make known to the sun that he troubles me. His familiarities displease me. Say to him that the grand emperor of Japan commands him to retire. Go!"

The prime minister confided to a chamberlain the honor of carrying the tinkling parasol, and went away.

He returned, presently, with the greatest consternation written in his face.

"Great emperor! Sovereign of the gods and of man! It is past comprehension. The sun pretends not to hear, and continues to shine on the road."

"Let him be punished."

"Certainly! His insolence merits it—but how shall I get at him to administer the punishment?"

"I am the equal of the gods—is it not so?"

"Assuredly, great Mikado—the equal, to say the least."

"You told me, but a moment since, that nothing was impossible to me. You have lied to me—you have disobeyed me, or you have badly executed my orders. I give you five minutes in which to put out the sun, or 10 in which to commit hari kari. Go!"

The prime minister went away, but did not return.

The imperial stone breaker was purple with rage.

"Upon my word! This is a fine position—this of emperor, when one is obliged to submit to the familiarities, the caprices, the brutalities of a moving planet. It is no use to deny it, the sun is more powerful than I. I would like to be the sun."

"You are the sun," said the angel.

And the little stone breaker shone in high heavens, all radiant, all flaming. He took pleasure in scorching the trees, in drying up the rivers and the springs, and in covering with sweat the august visages of emperors, no less than the dusty noses of the stone breakers, his colleagues of the morning.

But a cloud came between the earth and him, and the cloud said:

"Halt there: my dear. No one can pass."

"By the moon! This is a little too much. A cloud, a poor little cloud, without form, calls me 'my dear' and bars the way! Clouds are more powerful than I. I will be a cloud or I shall burst with jealousy."

"Do not burst for so little," said the angel, always in attendance, "be a cloud, since you wish it." And the new cloud rested proudly, in his turn, between the earth and the resplendent sun.

Never in the memory of God had there fallen such showers. The transformed stone breaker took pleasure in pouring rain and hail upon the earth in a fashion so terrible that trees fell down, finding only mud in which to fasten their roots. Under his aquatic rule of several hours, streams became rivers; rivers became torrents; seas merged into each other, and formidable waterspouts were everywhere.

A rock, meanwhile, held up his head in the storm. In face of all he remained impassive. Upon his flanks of granite the waves dashed, covering with froth the waterspouts breaking at his feet; and the thunder made him laugh each time that it tickled his sides.

"I am at my wits' end," said the cloud. "This rock ignores my power. He resists me, and I envy him."

Said the angel—"Take his place, and let us see if you will at last be satisfied."

The transformed cloud at length felt at ease. Impervious, inaccessible, impassive, under the burning caresses of the sun and under the fury of the thunder—he believed himself master of the world.

But lo, at his feet a little soft hammering drew his attention. He leaned over and saw a poor creature, covered with rags—thin and pale as he himself had been in the time of his greatest misery—who, with a mallet in his hand, chipped the granite into pieces to repair the neighboring roadway.

"What is this?" cried the superb rock, "a poor wretch, miserable among the most miserable, mutilates me and I can not defend myself! I am profoundly humiliated. I am reduced to envying the state of this creature."

"Take his place," said the angel, smiling.

And the insatiable personage became that which he was before—a poor little breaker of stones.

As in the past he worked upon the roads while there was light all the time, in all seasons, under the rain, the snow, or the sun.

He was always half dead from hunger, and three-quarters dead from fatigue—all of which did not hinder him from being perfectly contented with his lot.—French of Ernest L'Epine.

Hard to Swallow.

The teller of "tall stories" generally finds his rebuke awaiting him in an intelligent company. On one occasion, when several physicians had met, the conversation ran to the subject of the extraordinary things which a human being might swallow and still live.

The familiar stories about swallowing silver dollars, sets of false teeth, and so forth, had been related, when Doctor Longbow began to to speak.

"Two years ago," he said, "I was called in great haste to attend a carpenter in my town, though the message said that the man was beyond doubt already dead, for he had, while holding a large gimlet in his mouth at his work, suddenly been taken with a fit of hiccoughs and swallowed the gimlet.

But when I arrived at the man's house I found him very comfortable. The gimlet, gentlemen, gave him no trouble at all to digest."

There was silence for a moment. Presently one of the other doctors remarked:

"With you for his physician, Longbow, the man was lucky that it was only a gimlet that he undertook to swallow."

"What do you mean?"

"Why, if he had tried to swallow one of your stories it would have choked him to death."

The Mother's Treasure.

Very daring was the performance of a certain young housekeeper in a little Ohio town. She had just come, a bride and a stranger, among these people. She was ambitious and quick witted, and her household goods had only just been thrown down upon her floors.

There came a ring at her door. She thought it was the truckman, and hastened to open it. Before her stood a woman whose face she had had pointed out to her the day before as a society leader in the little town, a woman, also, of sharp eyes and sharper tongue. She was elegantly dressed, and evidently came to make her first call at the time most auspicious for observations.

The young mistress had her head tied up in a big cloth; she wore a dressing jacket and a dusty dress skirt, partly covered with a gingham apron. In her hand she held a whisk brush.

"Is Mrs. Smith at home?" asked the dainty lady, card in hand.

Now the new comer had been the best amateur actress in the city where she had lived, and she had not played the part of the singing chamber maid, who whisks the feather duster about coquettishly in the air, all for nothing.

"No, mem," she said, in the sweetest Irish brogue you ever heard; "no, mem, she's had to go up to Pittsburg for a day or two. She'll be back the last o' the week, mem."

And the baffled society leader went back to her carriage.

Two weeks later she sat in the perfectly appointed little parlor in the new house chatting with the stately, well poised young mistress.

"What a pretty maid you had when I first called," she said; is she still with you?"

"Oh," answered the other, her eyes sparkling, "that was my mother's little Norah. She came down to help me settle, but she went back last week to Pittsburg. She's a treasure, but she's mother's."

JOHN SHERMAN WINS.

He is Nominated on the First Ballot for Senator.

COLUMBUS, O., Jan. 7.—The Republican Senatorial caucus last night renominated Senator John Sherman by a vote of 53, to 38 for ex-Gov. Foraker, Gov. McKinley and Secretary Foster each receiving one vote.

JOHN SHERMAN.

Sherman and Foraker were sent for, and made brief speeches, and then the caucus adjourned.

The Foraker men are very angry and say that the end is not yet. They are especially bitter against Governor-elect McKinley, who, they say, stepped in at the last moment and took a hand in helping his friend Sherman. Friends of Sherman deny that McKinley has taken a part in the fight either for or against Sherman, but has adhered strictly to his published determination not to interfere.

DR. GRAVES'S SENTENCE OF DEATH.

He Protests His Innocence, but Is Condemned to Hang Next Month.

DENVER, Col., Jan. 12.—Dr. Graves's motion for arrest of judgment was denied by Judge Rising yesterday, and the doctor was sentenced to be hanged during the fortnight beginning January 31.

The crowded court-room was silent when the judge asked Dr. Graves if he had anything to say why sentence should not be passed upon him.

The accused, his gray hair straggling over his forehead, arose and said:

"Your Honor, I never, in any way or in any manner, thought or had anything to do with the death of Mrs. Barnaby. I have never confessed to any one that I sent a bottle of whiskey to Mrs. Barnaby, because I never sent it. Proceed, Your Honor."

The doctor was deadly pale while the sentence was being pronounced. His counsel asked for ninety days in which to file a bill of exceptions to the Supreme Court and fifteen days were allowed.

Gov. Routt will grant a reprieve to Dr. Graves in order to allow him to take his case to the Supreme Court. A petition for commutation of sentence will be circulated in this city. Dr. Graves was removed to Canyon City last night.

A TERRIBLE DISASTER.

Hundreds of Men Entombed by a Mine Explosion at Krebs, I. T.

MCALLISTER, I. T., Jan. 8.—The town of Krebs, five miles from this place, was the scene, yesterday evening, of an appalling mine disaster. At four minutes after 5 o'clock, just as the miners employed in shaft No. 11, operated by the Osage Coal and Mining Company, were preparing to come to the surface, an explosion occurred, spreading death among the men in the mine. There were 400 persons in the mine, and it is known that at least 100 men are entombed.

MCALLISTER, I. T., Jan. 9.—There are sixty-three dead and eighty-five injured miners now lying at the improvised morgue here as the result of the disaster in shaft No. 11.

Of those who were taken out alive fifteen died yesterday evening, and last night forty-eight were dead when they were brought from the pit. In addition to these, eighty-five are so badly hurt that it is supposed that at least twenty will die.

At a late hour last night it was estimated that the number of missing would reach nearly 200. The names of ninety-eight injured are known, and about fifty men escaped without injury.

DALZELL'S VIEWS.

He is for Blaine, but Says Harrison is the Best President Since Lincoln.

PITTSBURG, Pa., Jan. 11.—Congressman John Dalzell, the foremost opponent of Senator Quay in Pennsylvania, makes this significant declaration: "Pennsylvania is for Blaine, and the sentiment is so strong that it would be impossible to stem the tide, even if there was a disposition to do so. In view of the pronounced and universal demand for Secretary Blaine, and in obedience to the will of the people, aside from my personal regard for him, I could not be for any other man. I believe a second choice should not be considered."

"Then you have no second choice?"

"Harrison is the best president we have had since Abraham Lincoln," replied Mr. Dalzell. "I would not care to speak of him as a second choice, as that question should be considered, but if Blaine is not nominated there should be no other candidate. However, the demand for Secretary Blaine is universal."

Twins Die Together After 60 Years.

WILKESBARRE, Pa., Jan. 11.—Julia and Mary Howard, maiden twin sisters, died at their home in this city last night almost at the same hour. They died on the same day of the year and at the same hour they were born. They were sixty years of age. One was the victim of pneumonia and the other of dropsy. They lived together all their lives.

CHEATING IN HORSE BLANKETS

Nearly every pattern of 5/A *Horse Blanket* is imitated in color and style. In most cases the imitation looks just as good as the genuine, but it *hasn't the warp threads*, and so lacks strength, and while it sells for only a little less than the genuine it isn't worth one-half as much. The fact that 5/A *Horse Blankets* are copied is strong evidence that they are THE STANDARD, and every buyer should see that the 5/A trade mark is sewed on the inside of the Blanket.

The Rich Do Not Consider the Poor.

None do so little for the very poor of New York as its very rich. Efficient workers among the poor are at present generally drawn from the poor themselves, or from the middle and professional class. No one need wonder at this. Effectual charity work and the requirements of modern society do not easily consort. A very small proportion of those who possess enormous wealth in the city subscribe liberally to its various charities; comparatively few can be counted on for a ready support in any properly conducted and hopeful philanthropic movement; and fewer still are found willing to fulfil the more difficult, the more necessary duty of gaining personal knowledge of the needs and wrongs of the poor through personal study of their situation, and friendly intercourse with themselves.

I say, such attention, such knowledge, are not likely to be given by the very rich. To win fortune to-day implies a singleness of purpose, a concentration of all the faculties of the man to the doing of one thing. The very rich man must be a very busy man if he would make large sums or keep large sums of money. The difficulties presenting themselves to his ambition are like tough wood, that nothing but the keen edge of an axe can deal with, and to be sharp means almost of necessity to be narrow. Great riches are apt, as One we reverence taught long ago, to ossify the soul, and make the attainment and development of an ideal or truly sympathetic life always difficult, sometimes wellnigh impossible. I say, therefore, we expect too much from our very rich men and women when we call upon them to lead the crusade against poverty and vice. Certainly if we have expectation of their doing so, we in New York have been disappointed.—*Dr. W. S. Rainsford in Harper's Weekly.*

The Germ Theory

Shows that all epidemic, endemic, and contagious diseases are produced by minute infecting germs or microbes, peculiar to each disease, which enter the system. It being a well settled fact that any remedy which would kill the germ or microbe would destroy the life of the patient, it has been found that to force out these germs is the only safe relief from their ravages. In this way Swift's Specific has for 60 years been curing blood and skin diseases. It forces out the microbes through the pores of the skin, and soon sends out the poison which they may have left. In this way the disease is cured, and the general health of the patient is built up.

Treatise on Blood and Skin diseases mailed free. SWIFT SPECIFIC CO., Atlanta, Ga.

A BIG SILVER CONGRESS.

THAT'S WHAT CHAIRMAN SPRINGER, OF WAYS AND MEANS, WANTS TO SEE.

Silver Legislation Impracticable Now—He Would Have an International Conference During the World's Fair—Pass a Bill in the Next Congress.

WASHINGTON, Jan. 11.—Chairman Springer, of the Ways and Means Committee, was asked last night what he thought Congress should do in regard to the silver question. He replied: "I am a bimetallist and as such I cannot support any policy which would relegate silver to the rear or eliminate it from political discussion. On the contrary, I would make it a great national and international question, and would settle it upon lines as broad as possible, and at the earliest time practicable."

With a Republican Senate and a Republican President, however, free coinage cannot be allowed in this Congress, he said. Nothing could be done until the next Congress shall assemble in December, 1893. The practical thing to do was then to prepare to legislate on the subject. Congress could, he said, authorize the holding of an International Monetary Congress to fix the relations of gold and silver at Chicago during the World's Fair.

"This Congress should be a popular one," he said. "It should be a Congress, not a secret conference or commission, as in the past, and should have a large representation from this government and the governments with which we maintain diplomatic relations.

"The president should be authorized to invite the governments with whom we maintain the diplomatic relations to send representatives to this international congress, and he should be instructed to inform such governments that the Government of the United States earnestly desires to secure uniform system of coinage and of weights and measures, to be adopted thereafter by all commercial nations in order to facilitate, so far as possible, exchanges of commodities and to simplify monetary transactions; that this government desires international agreement as to the relations which should be maintained between gold and silver, and that in the event no conclusion is reached which would meet the approbation of this country the law-making power of the United States will feel at liberty to adopt such measures in reference to the subjects named as may be most conducive to the welfare of the people of this country.

TWO DEFEAT 700.

Seven Men Injured and Nine Dogs Killed by Pumas, Who Still Live.

LEIPSIC, Ohio, Jan. 11.—The greatest hunt ever undertaken in the State took place near here Saturday, when 700 men and fifty hounds turned out to run down two pumas, which for two weeks have been preying on live stock in the neighborhood. The beasts were encountered early in the afternoon, much to the sorrow of both hunters and hounds.

The fight was kept up until dark, with the result that seven of the hunters are dangerously injured, at least two fatally, and nine of the hounds are dead. The pumas are now surrounded in a swamp and the fight will be renewed.

FORTY KILLED AND INJURED.

Three Theatrical Troupes in a Wreck on the Monon Route.

CRAWFORDSVILLE, Ind., Jan. 12.—The northbound Monon passenger train was wrecked north of this city yesterday afternoon by a broken rail. Two passengers were killed and thirty-eight injured, two of whom will probably die.

Hardly a passenger on the train escaped injury. Help was soon at hand, and in a few moments the roadway was full of the maimed on their way to town.

There were three theatrical troupes on board, one of which was the City Club Burlesque Company, nearly every member of which sustained serious injury.

THREE MEN KILLED.

A Head-End Collision on the New York, Ontario and Western Railroad.

UTICA, N. Y., Jan. 7.—A head-end collision occurred between a freight and accommodation train and a light engine on the New York, Ontario and Western Railroad half a mile north of Smyrna, Chenango County, yesterday morning. The following were killed: Engineer Fred J. Young, of Utica; Engineer Martin Sheedy, of Oswego; Fireman Albert Cady, of Norwich.

Both engines exploded soon after they struck and were blown into twisted scrap iron.

Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge to all who desire, this recipe, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper, W. A. NOYES, 820 Power's Block, Rochester, N. Y. mar-6-1y.

As a young man passed along the street a resident remarked to a visitor: "That is one of our ablest financiers."

Why, I am astonished," was the reply. "He doesn't look to be over 25."

"He isn't so old as that even."

"How does he happen to be so successful?"

"Blamed if I know. He came here a stranger three years ago, with nothing except his good looks, and to-day he is the husband of the richest woman in the town."

I have not used all of one bottle yet. I suffered from catarrh for twelve years, experiencing the nauseating dropping in the throat peculiar to that disease, and nose bleed almost daily. I tried various remedies without benefit until last April, when I saw Ely's Cream Balm advertised in the Boston *Budget*, I procured a bottle, and since the first day's use have had no more bleeding—the soreness is entirely gone. —D. G. Davidson, with the Boston *Budget*, formerly with Boston *Journal*. 1-8-2t.

The Work of a Good Man.

WHAT DR. B. M. WOOLLEY IS DOING FOR THE SUFFERERS FROM THE USE OF OPIUM AND WHISKEY.

The works of a good man live after him. He enjoys the blessings and distinctions they entitle him to in this world, and build for him a home in eternity. It is the mission of every living soul to do some good to benefit humanity in some way. Notwithstanding this fact how few look upon life in this manner.

A few now and then, here and there, realize this great responsibility, and devote their lives to the salvation of their fellowmen. One of the most conspicuous examples of this character in Atlanta, is Dr. B. M. Woolley. He is a man noted for his Christian integrity and fair dealing, being an old and highly esteemed citizen of Atlanta, and having built up a reputation among his home folks as a specialist in the cure of the opium and whiskey habits that is of the highest character. Although he has had years of experience in the treatment of these dreadful diseases, he is yet an ardent student, and studies the science of his profession with as much diligence as if he were only just entering the profession.

Dr. Woolley, unlike a great many specialists, treats what is called the opium and whiskey habits as a disease, affirming that they are strictly diseases, and nine times out of ten the sufferers are not directly responsible for their condition. The success he has had in this line has been something phenomenal. He has cured patients in every state and territory in the Union, and has treated cases in London, France, Germany, Canada and Mexico.

Opium and whiskey are two of the most powerful, and when improperly used, the most life destroying medicines in the world, and to know how to extract or eradicate the effects of these drugs from the human body is an art to which Dr. Woolley can justly lay claim. As evidence he simply refers to his hundreds of patients who have been thoroughly and soundly cured. Being a man of scholarly attainments, he has prepared a work on opium and whiskey, and their effects upon the human constitution. In his work he has testimonials of people whom he has successfully treated and permanently cured. This book will be mailed free of charge to your address if you will only send Dr. Wooley a letter asking for it. If you are not afflicted with the opium or whisky disease, probably you know of a friend or have a relative who is. If you will kindly send their names or inform them of Dr. Wooley's ability, he will take pleasure in sending them any information they may desire. Address Dr. B. M. Wooley, Atlanta, Ga. (Atlanta Constitution.) Jan-8-2t.

A Little Girls Experience In a Lighthouse.

Mr. and Mrs. Loren Trescott are keepers of the Gov. Lighthouse at Sand Beach, Mich. and are blessed with a daughter, four years old. Last winter she was taken down with Measles, followed with a dreadful Cough and turning into a Fever. Doctors at home and at Detroit treated her, but in vain, she grew worse rapidly, until she was a mere "handful of bones".—Then she tried Dr. King's New Discovery and after the use of two and a half bottles, was completely cured. They say Dr. King's New Discovery is worth its weight in gold, yet you may get a trial bottle free at C. A. Kleim's Drugstore.

A woman's heart, even when most obdurate, may relent. Margaret was asserting in the nursery that she never, never meant to marry

"Very well, you shall not," said her papa; and going to the door, he called out to an imaginary suitor: "Go away, man! Margaret doesn't want you."

"Call him back!" cried Margaret. "Let me see what he looks like!"

Goutran burst like a whirlwind upon his friend Gaston. "Will you be my witness?"

"Going to fight?"

"No: to get married."

Gaston (after a pause). "Can't you apologize?"

The railroad engineers are the hardest worked and best paid of the carrying companies' employes. They run the most risk, need the steadiest nerves, and must have the levelest heads. The Delaware and Hudson company pays its engineers $3.41 a day; the Erie $3.80; the Pennsylvania system pays $3.48; the Lehigh Valley $3.40; the Reading $3.03; the Northern Central $3.70; and the Lehigh and Susquehanna, $3.43 a day. Only in the case of the Kittaning Valley engineers, who get $4.75 a day, do the wages for engineers get into the $4 class. The Cleveland and Pittsburg pay $3.70; Pine Creek $3.75; Pittsburg, Ft. Wayne and Chicago railway $3.84.

A REMARKABLE CASE—Mr. Walter Wheeler, of the Washington Mills, Lawrence, Mass., for two years afflict with varicose veins, accompanied by a troublesome eruption, was completely cured after taking only eight bottles of Ayer's Sarsaparilla.

Sweet Girl. "It changes constantly. Every time I'm a year older he gets a bigger dog."

WASHINGTON LETTER

WASHINGTON, D. C., Jan. 12th, 1892.

It is a matter for congratulation that Speaker Crisp is rapidly recovering. His continued illness is becoming very embarrassing to the democratic majority in the House, as there is a natural hesitation among those who are capable of directing the policy of the party, about assuming a function that belongs properly to the Speaker; consequently there has been some confusion, which thoughtless people have taken for dissension, and republican newspapers have not been slow to exaggerate this idea, and some democrats, fortunately few in number, have allowed themselves to fall into the error of believing such statements to be the truth.

It is probable that had not Mr. Crisp been stricken down, a democratic caucus would have been held before this, at which the general policy to be pursued by the majority of the House during the session would have been mapped out and some agreement reached as to who should assume the leadership of the House on the floor, but it has not been thought advisable to hold this caucus in the absence of Speaker Crisp. While it is not probable that Mr. Crisp will be strong enough to preside over the House during this week, yet he is already well enough to confer with his colleagues, and the prediction is made that all cause of camplaint will shortly disappear and that the democratic majority will get down to work with unanimity to carry out the policy upon which it was elected—tariff reform and retrenchment in public expenditures.

No man who ever entered the Senate was given a more cordial reception by his party colleagues than was Senator David B. Hill, of New York, and no new member of that body ever received the deference which is accorded him by all of the Senators His intimacy with Senator Gorman has given that gentleman an unquestionable boom for the Presidential nomination. This is doubtless largely due to the feeling that any candidate supported by Senators Hill and Gorman would be difficult to defeat in a democratic national convention.

Representative Blount, of Georgia, chairman of the Committee on Foreign Affairs, thinks the House made a mistake in defeating the joint resolution authorizing the Secretary of the Navy to charter a steamship to carry food to Russia and that it was done through a misapprehension and the lack of proper information. He has moved a reconsideration of the vote, and expects that the resolution will be passed when it comes up.

The declaration of the State presidents of the Farmers Alliance, who have been holding a conference here, has excited much comment here

Mr. Blaine is again having a rocky time of it, between the attempt of the Chilians to wriggle out of making an apology to the United States and of the Harrison crowd to make his health a national bugaboo. He is also having trouble with Mr. Harrison and the Cabinet over the question of granting the Mexican government the right to send troops into the United States after Garza, who is said to be backed by Boss Shepherd of Washington notoriety, and other Americans. Mr. Blaine alone opposes allowing Mexican troops to cross the border.

Chairman Tillman, of the House committee of Patents, appears to be the right man in the right place. He has been studying the complaints of the successful inventors against the irresponsible parties who make a practice of wilfully infringing patents, knowing that the inventor can collect no damages from them, no matter how much the courts may decree, and he has become convinced that they are too true. The remedy is in adopting a law that will make the wilful infringer of a patent liable to a criminal prosecution. With the prospect of a striped suit before them there will be a large decrease in the number of infringers.

The Idaho and Florida Senatorial contested cases will be decided this week by the Senate committee on Elections. It is practically settled that the committee will report in favor of Call and Dubois, who already occupy the seats.

The executive committee of the National Association of Democratic Clubs will hold an important meeting here on the 20th inst

If one may judge from the number of bills introduced in Congress on the subject, the idea of electing the President and Vice President and U. S. Senators by direct vote of the people, is growing in popularity.

The Election Booths.

A TRIAL OF THE NEW LAW WILL BE EXPENSIVE.

The commission created by the Baker ballot reform bill to select suitable voting booths, guard rails and ballot boxes is composed of Secretary of State Harrity, Secretary of Internal Affairs Stewart and Auditor General McCamant. The action of this commission is important, as it involves the expenditure of about a quarter of a million of the State's money, the first cost of those supplies being borne by the commonwealth, after which each county will have to keep up its own voting apparatus. It has been virtually decided that the commission has no power to purchase a ballot box, but it will make a recommendation that is expected to have considerable weight with the County Commissioners, who will purchase them for their own districts. Another expense that will fall heavily upon the counties will be for the providing polling places to conform with the requirements of the law. Rooms will have to be secured thirty by twenty feet, and as these are not always easy to rent for one or two days a year, it may necessitate renting them by the year or the purchase of movable polling places that may be set up in the street, and, after election, taken to pieces and stored away for future use. As there is no material that would answer the purpose so well as steel, the purchase of these polling places means the outlay of a large amount of money.

The Commission has decided that it will not purchase booths composed of wood or wood and canvas, and the competition has virtually narrowed to three styles, one, all of steel, which closes up something on the principle of a jack knife, manufactured by a St. Louis firm, and two, built of iron and wood, manufactured by firms at Marietta, Lancaster county, and Buffalo, N. Y., respectively. The Commission took a vote on the question a few days ago, when Secretary Harrity favored the St. Louis booth, Secretary Stewart that from Marietta, and Auditor General McCamant that made in Buffalo. The St. Louis firm, to put itself on an equal footing with any concern in this State has pledged itself, if awarded the contract, to manufacture the booths in Pennsylvania.

The booths now under consideration range at $8 a piece. At the November election next year there will be about 4,500 voting districts in the State, and an average of five booths for each polling place will be required. That means 22,500 booths at a total cost of $180,000. In addition to this will be the cost of guard rails, so that $200,000 is a low estimate of the first cost of the new law to the Commonwealth.

A LATER REPORT.

The commission has adopted the style of ballot box manufactured by C. F. Hodson, of New York, which it will recommend to the county commissioners for adoption. The counties must furnish the boxes. As it will be necessary to procure boxes large enough to hold the blanket tickkets to be voted it is likely that that manufactured by Mr. Hodsdon will be generally adopted.

The commission has prepared the following specification for a polling booth: Material to be clear seasoned white pine, number one grade. The divisions and backs from one and one-fourth inch stuff, surfaced on all sides, to be made in separate panellings and must follow accurately the size and shape shown on drawing, the styles and rails to be moulded on the solid, framed together and mouldings coped; each division and back to be hinged together by two two-inch by four-inch back flaps; the first or starter booth and the annexes to be joined by screen door fasteners, one at top and one at bottom. The shelf to be from one-inch stuff, surfaced on all sides and held in place by stub and plate on the back and single-bed fastener at each end, and set to slope one-half inch from back to front. The metal fittings described to be in malleable iron of sizes and weight shown on drawing.

STYLE OF THE GUARD RAIL

The pattern of the guard rail selected is similar to that presented by the Buffalo Portable steel house company, of Buffalo, N. Y. The specifications for this rail as adapted follows: Floor flanges are to be made of cast iron containing five screw holes to be tapped so as to admit a three-quarter inch pipe. Standard to be on three-quarter-inch pipe, thirty-two inches in length, threads cut on lower end to enable it to be firmly screwed into floor of cage. Top to be one and three quarter-inch iron knob, containing hole to admit chain, also top hole to admit set screw. Standard to be covered with one coat of paint. The rail to be non-welded chain, same as described in blue print. Cost thirty-two cents per linear foot, say fifteen feet of chain or rail, with six standards, two for first three feet of chain and one standard for each additional three feet of chain; the whole to cost $4.80 complete, delivered at county seat.

Mr Hodsdon agrees to deliver and furnish the style of ballot boxes selected by the commission at $3 apiece within three months after the awarding of the contract. The commission prescribes that the boxes shall be made of ash, well seasoned and kiln dried, and in the best manner as to workmanship and finish. The hardware used on the boxes shall be of malleable iron or steel, either bronzed or japanned. The boxes shall be eighteen inches each way, inside measurement and all.

EDGES SHALL BE RABETED.

The thickness of the wood shall be five eighths inch strong. Each box shall be fitted with one lock with three keys to each lock. Two handles on sides and two hinges for corner. The slot in the cover, through which the votes are to pass, shall be six inches long and three-eighths-inch wide, bushed with metal. There shall be a metal cap for closing the slat. This cap shall have a self-locking device, so that when placed in the slot the cap cannot be removed without unlocking the box

The maximum cost of the main booth has been fixed at $4 75. The annexes, or additional compartments, must not cost more than $3.50 each. The commission estimate that it will require 5,000 main booths at a total cost of $23,750. and 20,000 annexes at a total cost of $70,000 to conduct elections according to the provisions of the law. Five thousand guard rails will be necessary at a total cost of $24,000.

Hugh Baylotts, general agent for the Elsner patent steel booth company, of St. Louis, says the style of booth selected by the commissioners is practically the same as that exhibited by his company, only that it is to be constructed of wood instead of steel. He claims that the contractors furnishing them must infringe on the Elsner company's patent if they obey the commissioners' instructions, and threatens to bring suit against the first person making them. He has already engaged John R. Read, of Philadelphia, to defend his company's patent.

We're not waiting for the bats and moles but for men and women who have eyes and use them, who have brains and reason! There's a new world for them—suffering and sickly as they are—a new world created from the brain of a skilful physician—a discovery—the "Golden Medical Discovery."

Years ago Dr. Pierce found out that the secret of all scrofula, bronchial, throat and lung trouble lay—in the beginning at least— in impure blood and the weak tone of the system; that the way to cure these effects was to remove the cause, that human nature being the same, the same results might be looked for in nearly all cases. So confident was he that the exceptions were uncommon that he took the risk of giving the medicine to those it didn't benefit for nothing, and the results have proved that he was right.

And "Golden Medical Discovery" is the remedy for the million! The only *guaranteed* Liver, Blood and Lung remedy. Your money back if it doesn't help you.

So many have been cured of rheumatism by Hood's Sarsaparilla that we urge all who suffer from the disease to try this medicine.

Chairman Kerr is a candidate for re-election as Chairman of the Democratic State Committee, notwithstanding reports to the contrary. He says so himself, and that is pretty good authority.

Peculiar

Many peculiar points make Hood's Sarsaparilla superior to all other medicines. Peculiar in combination, proportion, and preparation of ingredients, Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom. Peculiar in its strength and economy—Hood's Sarsaparilla is the only medicine of which can truly be said, "One Hundred Doses One Dollar." Medicines in larger and smaller bottles require larger doses, and do not produce as good results as Hood's. Peculiar in its medicinal merits, Hood's Sarsaparilla accomplishes cures hitherto unknown, and has won for itself the title of "The greatest blood purifier ever discovered." Peculiar in its "good name at home,"—there is now more of Hood's Sarsaparilla sold in Lowell, where it is made, than of all other blood purifiers. Peculiar in its phenomenal record of sales abroad, no other preparation has ever attained such popularity in so short a time, and retained its popularity and confidence among all classes of people so steadfastly.

THE CHILI QUESTION.

The difficulty with Chili does not appear to be assuming any more favorable aspect. The investigation now being conducted at San Francisco into the attack on the crew of the U. S. war vessel Baltimore, and the ugly demonstration at Valparaiso against the Yorktown's gig crew have caused a very uneasy feeling at Washington. It has been expected that Chili would apologize for these outrages, and make reparation, but she does not seem inclined to do it. The difficulty in the matter is that the United States has no coaling or provision station near enough to Chili to supply her men of war, in case they are sent down there, and without these the greatest navy in the world would be powerless. The relations between this government and Chili have been strained for some time, and it is hard to predict what the outcome may be.

All the year round is the time when Dr. Pierce's Golden Medical Discovery works the best.

It purifies the blood.

It's not like the sarsaparillas, which claim to do good in March, April, and May; you can depend upon it *always*. That's why it is *guaranteed*. If it doesn't benefit or cure, in every case for which it's recommended, you have your money back.

No other medicine of its kind says as much—but no other *does* as much. It cleanses, renews and invigorates the entire system. For all skin, scalp and scrofulous affections, as Eczema, Tetter, Salt-rheum, White Swellings, Hip-joint Disease, and kindred ailments, it's a *positive* cure.

The proprietors of Dr. Sage's Catarrh Remedy offer $500 for an incurable case of Catarrh. It isn't mere talk—it's *business*.

They mean to pay you, if they can't cure you. But you'll find that they can.

ANOTHER BANK FAILURE

THE FIRST NATIONAL AT MUNCY SUSPENDS PAYMENT.

WILLIAMSPORT, January 11.

The First National Bank of Muncy, this county, closed its doors this morning. The citizens of Muncy were thrown into a fever of excitement when a notice was posted on the bank saying it had suspended until further notice. This was signed by E. H. Dengler, national bank examiner, who was sent from Washington on Saturday by the Comptroller of the Currency, doubtless because the bank's last statement was not satisfactory.

On his arrival he went to the vault, but could not get it open, when he sent for an expert. When this became known there was a run on the bank The expert opened the vault, which was empty, and the examiner then closed the bank.

The bank has not been doing a profiable business and has had heavy losses where it loaned money. There was $70,000 on deposit at the last statement and there is now a $40,000 shortage. Captain J. M. Bowman is president and James M. Bowman and Baker Landcake are directors

Many of the stockholders are wealthy men and it is hoped that the depositors, many of whom are farmers, will be paid in full.

Dela Green, the cashier and ex-Bank Examiner for this district, was arrested between ten and eleven o'clock to-night, as startling disclosures were made during the evening.

Dela Green, was arrested while in bed and was taken before Unted States Commissioner Bently. During the night he will remain in custody of the Deputy Marshal.

Examiner Dangler said this evening that the affairs of the bank are in very bad shape, and it looks as if the institution had been looted.

At midnight the investigation is still under way and full particulars will not be known until morning.

THE INVISIBLE ARMY — Of microbe (micro organisms is a mighty host, which indeed no man can number. Invisible to the naked eye, the poisonous part of this army is the cause of four fifths of all the diseases of the human family—they destroy more lives than war, famine, fire, murder and shipwreck combined, and they actually abbreviate the average term of human life by three-fourths. The way to relieve the human body of these microbes is to take Swift's Specific. When this medicine gets well into the system the poisonous germ must leave—he cannot exist there, hence he seeks an exit through the pores of the skin. After he departs, a continued use of the Specific will force out the poison, and the patient is well.

The Columbia Daily Calendar.

An old friend in a new dress, and an article that has come to be one of the indispensables of an editor's desk, comes to hand in the Columbia Daily Calendar for 1892. The Calendar is in the form of a pad containing 367 leaves, each 5⅛x2⅝ inches; one for each day of the year, to be removed daily, and one for the entire year. The day of the week, of the month, and of the year are given, and each slip bears a short paragraph pertaining to cycling or some kindred subject. At the bottom of each leaf is a blank for memoranda, every leaf being accessible at any time. The stand is an entirely new departure, being made of sheet metal finished in ivory black, and is very compact. At the close of the year the stand will be available for another pad. This is the seventh issue of this now well-known Calendar, yet all the matter is fresh and new, having been carefully collected from leading publications and prominent writers, most of it being specially written for this purpose. It comprises notable events in cycling, opinions of physicians and clergymen, hints about road making, and numerous other topics.

THE OLD RELIABLE READING ROAD THE FAVORITE EVERYWHERE.

In glancing over our exchanges we find frequent mention and high commendation of the Philadelphia and Reading Railroad, which under the wise and vigorous policy instituted by President A. A. McLeod and ably prosecuted by his devoted lieutenants, has reached a degree of prosperty that a few years ago seemed impossible of attainment.

To meet the demands of the traveling public of to-day it is necessary that a railroad company shall furnish not only speedy and safe transportation but luxurious accommodations as well. All these requirements are met in the fullest measure by the Reading, which certainly deserves its pet appellation, "The Royal Route." The road is in exceptionally fine condition, and its motive power and car equipment are constantly being improved and added to. It enjoys the proud distinction of owning and running the fastest locomotive in the world, the famous "No 206," which made the world's record of a mile in 39¾ seconds.

This triumph is but an example of what the Reading is accomplishing in all directions. In the Boston *Christian Ledger* of January 7th, we find the following, which fairly reflects the popular appreciation of this line:—"The Royal Blue Line between New York, Philadelphia and Washington, via the Reading Railroad, has attained a world-wide reputation, owing to the high standard of excellence it has maintained ever since it was inaugurated, and its success, although unprecedented, is fully deserved. The trains are the finest and safest in the world and vestibuled from end to end making each train a practically solid and continuous structure throughout. They are equipped with Pullman's anti-telescoping steel frames, rendering injuries from collision impossible. They are heated by steam and lighted by the Pintsch gas system. Each train is equipped with palatial day coaches, the finest Pullman cars on all day trains and sleeping cars on night trains, and an unequaled dining car service. A WHOLE TOWN SINKING

HAZELTON, PA., BEING UNDERMINED BY THE CAVE-IN OF A MINE.

A Square Mile of Territory Affected—Hundreds of Houses in Danger—People Deserting Their Homes—Trains Stopped Running—Great Excitement.

HAZELTON, Jan. 13.—It was thought at midnight Monday night, when the cave-in of the Pardee mine had spread over five squares and had affected 400 houses and 2,500 people directly, that all danger was over. But yesterday the cave-in extended, until it now covers a square mile in extent.

The Sisters of Mercy were hurriedly taken out of the convent, and for a time Lehigh Valley passenger trains were stopped from running through the city. Water and gas mains in streets a quarter mile away are snapping. Windows, pavements, and cellars continue to gap with new fissures.

Last evening Superintendent Frank Pardee admitted that he did not know what the result might be. It is estimated that real estate values throughout the city have fallen $1,000,000 in the past twenty-four hours.

A large force of special police with lanterns patrolled the streets, ready to warn the sleeping citizens, and guarding from thieves the scores of deserted houses wherein furniture remains. It is generally believed that the disaster was caused by robbing the pillars in the mines.

OHIO'S NEW GOVERNOR.

Gov. Campbell Turns the State Over to His Successor.

COLUMBUS, O., Jan. 12.—Gov. Campbell turned over the reins of State Government to Major McKinley yesterday in good form. At noon, with the Joint Legislative Committee, he went to Gov. McKinley's hotel and escorted him to the State House rotunda, where the ceremonies were to take place.

Ex-President R. B. Hayes introduced the Rev. Bennett, who offered prayer. Gov. Campbell then said that the last act of his administration was one of the most pleasing ones, and that was to hand to Major McKinley his commission as governor of Ohio. He did so, he said, with the sincere wish that his administration might be a successful one and reflect credit both upon the governor and the State.

At this Major McKinley turned and said impressively:

"Gov. Campbell, I thank you. Let me say I wish you and yours all the success, happiness and prosperity that can possibly fall to the lot of mortals."

He then raised his right hand and was by Chief Justice Marshal sworn in as Governor of Ohio. His inaugural address was read from manuscript in an unimpassioned, dignified style.

FOR OUR COAST DEFENSES.

A Bill Appropriating $100,000,000 Introduced in the Senate.

WASHINGTON, Jan. 13.—Senator Dolph, from the Committee on Coast Defenses and Fortifications, reported favorably yesterday a bill providing for fortifications and other coast defenses, as recommended by a Fortifications Board appointed by the president. The cities selected for special defense are: New York, San Francisco, Boston, the Lake ports, Hampton Roads, New Orleans, Philadelphia, Washington, Baltimore, Portland, nearly all of the important Southern seaboard cities, and those on the Pacific Coast.

An appropriation of $100,000,000 is made, a reduction of $23,000,000 from the appropriation contained in the bill introduced at the last session. The bill as amended reduces the amount to be expended the first year from $20,000,000 to $10,000,000, and for each year thereafter for a period of ten years the sum of $9,000,000 is to be available.

Malcolm Forbes, of Boston, agreed to pay Senator Leland Stanford $150,000 for the mighty son of Electioneer. Two months ago Arion made a record of 2.10¾ at Stockton, Cal.

Arion is a bay colt, fifteen hands high and was foaled March 13, 1889. His sire was the illustrious Electioneer and his dam Nanette, sister to Woodnut (2.16½).

Wanamaker's Hands Full.

SOME OF THE REFORMS HE HOPES TO ACCOMPLISH IN MAIL SERVICE.

A dispatch from Washington says: "Among the many things which Postmaster General Wanamaker hopes to accomplish before the expiration of his term are a foreign postal card with stamped coupon attached for prepaid reply; duplex house letter-boxes, in one side of which the postman can deliver his mail while the householder can put his letters in the other; an extended and ultimately universal free delivery; a reform in the present abuse of the penalty frank, whereby more than eight million dollars worth of the most laborious mail carrying is done for nothing; an alteration in the law which now permits paper-covered "serial novels" to be sent at one-eighth the legitimate rate; based upon these two reforms, a reduction of letter postage to one cent an ounce, and a resulting change, in a few years, of the present annual deficit of five million dollars into a surplus of fourteen; the creation of a postal banking system, the deposits, estimated at five hundred millions, to be re deposited in National local banks, as preferred liabilities, and to be employed in Government real estate and similar solid investments; and the postal telegraph system." We rather guess Mr. Wanamaker has bitten off more than he can chew during his term of office.

The Duke of Clarence, eldest son of the Prince of Wales, and heir presumptive to the throne of England, was said to be dying on Wednesday, from pneumonia.

J. S. Williams, auctioneer, on Thursday, sold the one-fourth interest in the Exchange block to Dr. J. H. Vastine of Catawissa, for $4700. The C. B. Brockway property was sold to Mrs. Annie E. Boone for $3550. These were properties belonging to the M. G. Hughes estate.

The "ominous click." Another lamp chimney for the ash barrel. "Pearl-top" is the only reliable kind not made for ash barrels and back yards. The "we have just as good," don't make them as good. Not one dealer in a hundred knows anything about glass except the price.

Insist upon having Macbeth's "Pearl-top" chimneys, and take no other. You will find this label printed in black on each "Pearl-top" chimney; they are wrapped in white paper, printed in red ink.

YOUR COUGH

Has not yielded to the various remedies you have been taking. It troubles you day and night, breaks your rest and reduces your strength. Now try Ayer's Cherry Pectoral, before the bronchial tubes become enlarged or the delicate tissues of the lungs sustain fatal injury. As an anodyne and expectorant, this preparation has no equal. It soothes the irritated membrane, promotes expectoration, and induces repose. The worst cough

Can Be Cured

by the use of Ayer's Cherry Pectoral. Dr. J. G. Gordon, Carrol Co., Va., writes: "I use Ayer's Cherry Pectoral in my practice, and pronounce it to be unequaled as a remedy for colds and coughs."

"After the grippe—cough. This was my experience—a hacking, dry cough, with an incessant tickling in the throat, keeping me awake nights, and disturbing the household. I tried a great number of 'cough-cures,' but they gave me only temporary relief. At last I concluded to take Ayer's Cherry Pectoral, and before I had used half a bottle, I had my first all-night sleep. I continued to improve, and now consider myself cured."—A. A. Sherman, Coeymans, N. Y.

By Using

Ayer's Cherry Pectoral, many have been saved from fatal illness.

E. D. Estabrooks, Canterbury, N. B., says: "In the winter of 1859 I was a surveyor of lumber in Sacramento, Cal. Being considerably exposed, I took a bad cold accompanied with a terrible cough. I tried several remedies, but they failed to cure me, and it was thought I was going into a decline. On the advice of a friend, I began to use Ayer's Cherry Pectoral, and less than half a bottle completely cured me."

DR. G. C. OSGOOD, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."
DR. J. F. KINCHELOE, Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."
H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

Dickens' Pet Daughter.

THE GREAT NOVELIST'S FAVORITE "MAMIE" TO WRITE OF HER FATHER.

Pretty "Mamie" Dickens was already considered by those who knew Charles Dickens best to be the novelist's favorite daughter. To none of his children, perhaps, was Dickens more affectionately attached, and the "pet daughter" saw much of her father under all circumstances. When even the dogs were chased out of the novelist's study, Mamie was allowed to stay. The daughter is now a full-grown woman, living quietly just outside of London. For the first time since her father's death, Miss Dickens has been persuaded to write of him whom she knew so well. During 1892 there will be published in *The Ladies' Home Journal*, of Philadelphia, a series of articles by Miss Dickens under the attractive title of "My Father as I Recall Him." Fortunately for the thousands who will read what she writes in this series, Miss Dickens has a retentive memory, and she made copious notes during her father's lifetime. She will tell in this series everything she remembers of her father; how he educated his children; his family and his personal habits; how he wrote his famous books; his love of flowers and animals; how Christmas was spent in the Dickens household; how the novelest romped with his children; the famous people who came to the Dickens home, and his last years and closing days. No articles ever published have in them so much promise of telling the world things which it has never known of Dickens, and Miss Dickens' story of her father's life will be eagerly looked for in thousands of homes where the name of Dickens is like a household word.

SOME OF THE REFORMS HE HOPES TO ACCOMPLISH IN MAIL SERVICE.

A dispatch from Washington says: "Among the many things which Postmaster General Wanamaker hopes to accomplish before the expiration of his term are a foreign postal card with stamped coupon attached for prepaid reply; duplex house letter-boxes, in one side of which the postman can deliver his mail while the householder can put his letters in the other; an extended and ultimately universal free delivery; a reform in the present abuse of the penalty frank, whereby more than eight million dollars worth of the most laborious mail carrying is done for nothing; an alteration in the law which now permits paper-covered "serial novels" to be sent at one-eighth the legitimate rate; based upon these two reforms, a reduction of letter postage to one cent an ounce, and a resulting change, in a few years, of the present annual deficit of five million dollars into a surplus of fourteen; the creation of a postal banking system, the deposits, estimated at five hundred millions, to be re deposited in National local banks, as preferred liabilities, and to be employed in Government real estate and similar solid investments; and the postal telegraph system." We rather guess Mr. Wanamaker has bitten off more than he can chew during his term of office.

YOUR COUGH

Has not yielded to the various remedies you have been taking. It troubles you day and night, breaks your rest and reduces your strength. Now try **Ayer's Cherry Pectoral**, before the bronchial tubes become enlarged or the delicate tissues of the lungs sustain fatal injury. As an anodyne and expectorant, this preparation has no equal. It soothes the irritated membrane, promotes expectoration, and induces repose. The worst cough

Can Be Cured

by the use of Ayer's Cherry Pectoral. Dr. J. G. Gordon, Carrol Co., Va., writes: "I use Ayer's Cherry Pectoral in my practice, and pronounce it to be unequaled as a remedy for colds and coughs."

"After the grippe—cough. This was my experience—a hacking, dry cough, with an incessant tickling in the throat, keeping me awake nights, and disturbing the household. I tried a great number of 'cough-cures,' but they gave me only temporary relief. At last I concluded to take Ayer's Cherry Pectoral, and before I had used half a bottle, I had my first all-night sleep. I continued to improve, and now consider myself cured."—A. A. Sherman, Coeymans, N. Y.

By Using

Ayer's Cherry Pectoral, many have been saved from fatal illness.

E. D. Estabrooks, Canterbury, N. B., says: "In the winter of 1859 I was a surveyor of lumber in Sacramento, Cal. Being considerably exposed, I took a bad cold accompanied with a terrible cough. I tried several remedies, but they failed to cure me, and it was thought I was going into a decline. On the advice of a friend, I began to use Ayer's Cherry Pectoral, and less than half a bottle completely cured me."

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."
DR. G. C. OSGOOD, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."
DR. J. F. KINCHELOE, Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."
H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

Dickens' Pet Daughter.

THE GREAT NOVELIST'S FAVORITE "MAMIE" TO WRITE OF HER FATHER.

Pretty "Mamie" Dickens was already considered by those who knew Charles Dickens best to be the novelist's favorite daughter. To none of his children, perhaps, was Dickens more affectionately attached, and the "pet daughter" saw much of her father under all circumstances. When even the dogs were chased out of the novelist's study, Mamie was allowed to stay. The daughter is now a full-grown woman, living quietly just outside of London. For the first time since her father's death, Miss Dickens has been persuaded to write of him whom she knew so well. During 1892 there will be published in *The Ladies' Home Journal*, of Philadelphia, a series of articles by Miss Dickens under the attractive title of "My Father as I Recall Him." Fortunately for the thousands who will read what she writes in this series, Miss Dickens has a retentive memory, and she made copious notes during her father's lifetime. She will tell in this series everything she remembers of her father; how he educated his children; his family and his personal habits; how he wrote his famous books; his love of flowers and animals; how Christmas was spent in the Dickens household; how the novelest romped with his children; the famous people who came to the Dickens home, and his last years and closing days. No articles ever published have in them so much promise of telling the world things which it has never known of Dickens, and Miss Dickens' story of her father's life will be eagerly looked for in thousands of homes where the name of Dickens is like a household word.
